

How to Teach Python

5 tips to prepare your next tutorial

Dr. Kristian Rother

Public domain image

Confucius (孔夫子)

China, 500 BC

“If your plan is for one year, plant rice.

If your plan is for ten years, plant trees.

*If your plan is for one hundred years,
educate children.”*

Teaching is about helping people grow

help me to do
it on my own.

Maria Montessori, 1913

Goal:

design a 180' Numpy tutorial

**What challenges might we face
when teaching Numpy?**

Writing a Speech without an audience in mind
is like starting a love letter with
“to whomever it may concern”

John Zimmer

European Champion of Public Speaking

mannerofspeaking.org

Hint #1:

Connect with your participants early
(1-2 weeks is usually sufficient)

**What topics should a Numpy
tutorial cover?**

Frequent problem when experts teach:

The teacher could
become a problem.

They know too much.

Brains have a limited working memory

$$7 \pm 2$$

Hint #2: limit the number of new concepts per lesson

Hint #3: Theme your Lessons

to engage your students

use **exactly one**

business case or fun theme

A song of the dwarves:

gold gold gold gold
gold gold gold gold
gold gold gold gold
mine mine mine mine

A song of the dwarves:

gold gold gold gold
gold gold gold gold
gold gold gold gold
mine mine mine mine

very different words in
the original but details
lost in translation

place

verb

owner

security measures

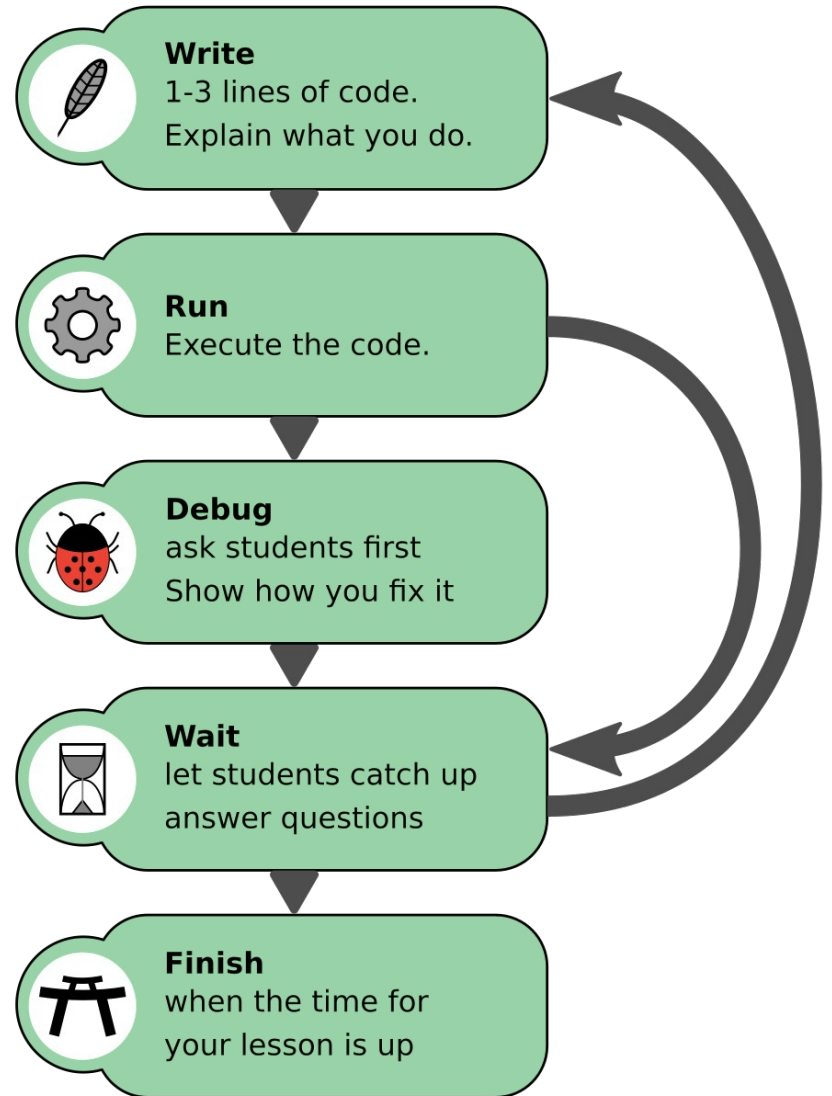

Hint #4: Turn Code Examples into exercises

- replace words and phrases by ...
- shuffle the lines
- Introduce bugs
- ...

see “faded examples” by Greg Wilson”
